Getting Into the Canoe

Approach the canoe from the side. Place the paddle across the boat for stability. Step into the center, then settle into your seat or kneeling position.

Paddling Posture and Grip

Sit or kneel upright with a relaxed posture. Hold the paddle with your top hand on the T-grip, and your bottom hand roughly shoulder-width apart on the shaft. Keep your hands close to your body for better control.

Forward Stroke

Reach forward with the paddle blade immersed just past your toes. Pull the paddle back alongside the canoe, engaging your torso. Lift the paddle out of the water, and repeat smoothly.

Turning Techniques

- J-Stroke:** A standard stroke for maintaining a straight course, involving a slight pry on the stroke side to correct the canoe's direction.
- Sweep Stroke:** Used for turning; sweep the paddle in a wide arc from the front to the back on the side you want to turn toward.
- Draw Stroke:** Moves the canoe sideways; paddle laterally away from the canoe's side.

Maneuvering and Steering

Use a combination of strokes for precise control. Practice leaning the canoe slightly to aid turning. Keep low and centered for balance.

Navigating Different Water Conditions

Canoeing experiences vary greatly depending on the environment. Here's how to approach different water types:
